## TERMS OF SALE

1. Unless specifically otherwise agreed, all products are sold ex seller's warehouse and travel throughout at buyers risk and expense.
2. If products are sold ex seller's warehouse, the cost of cases, of packing and of inspection and of any freight, forwarding, insurance, export and import charges, shall be for buyer's account.  
These charges shall be payable on arrival of the goods at U.S. port.  
Unless otherwise instructed, the seller will arrange for transportation and for insurance coverage to destination.
3. Payment shall be due 60 days from date of Invoice, two (2) per cent discount allowed for payment within 10 days from date of Invoice.
4. The seller warrants the goods to be sound and healthy at time of shipment but does not otherwise warrant flowering- or other planting- or growing- or forcing results.
5. If at time of shipment the buyer's credit information, submitted by any party, chosen by the seller, or if the buyer's financial responsibility appears unsatisfactory to the seller, the seller may, at his option cancel the order, as a whole or in part, provided that he shall promptly advise the buyer of any such cancellation; and the seller will not be responsible for any damages whatsoever arising from such cancellation.
6. Total or partial failure of the general or of seller's crop, owing to frost, floods, or other natural causes, or loss or damage to seller's stocks by fire or any other cause beyond his control, preventing seller from fully performing the present and/or similar contracts, shall relieve the seller from his obligations under the present contract to a corresponding extent.
7. Whenever the terms of this order call for delivery f.o.b. any place or conveyance in the United States or Canada, the seller shall be required only to arrange for transportation and insurance to the point specified and the seller may, at his election, either prepay freight, insurance and/or other shipping charges, including import duty and arrange to collect same on delivery in a lump sum from the buyer OR the buyer shall pay all such charges from warehouse Holland until arrival at such agreed place or conveyance in the United States or Canada. In either case buyer shall be permitted to deduct the charges paid by him to such agreed f.o.b. United States or Canada place or conveyance from the agreed f.o.b. United States or Canada prices.  
Notwithstanding any agreement as to delivery at any point other than seller's warehouse, the goods shall in all cases be at buyer's risk from the time they leave the initial point of shipment.
8. All claims hereunder shall be deemed waived unless presented within eight (8) days after receipt of goods. Claims relating to damage to or condition of goods shall be accompanied by Lloyd's survey report or its equivalent, stating full particulars. In case of non arrival of goods at destination within a reasonable time after receiving advice of shipment from Holland or shipping point in the U.S., buyer shall notify the seller by Western Union Telegraph Company.
9. Cancellation of orders or part thereof will only be accepted when buyer agrees to pay seller his loss of profit; changes in orders may be allowed only if both parties agree thereto.
10. These printed Terms of Sale cannot be altered nor departed from except by mutual consent in writing.

# Hyacinths

(Holland Grown)

## Name-List of Hyacinths

Hyacinths are not only good for forcing purposes but are also excellent for the garden.

With their bright and cheerful colors, nothing adds more to the beauty of the Spring garden than Hyacinths in beds and borders.

For sizes see page 6.

### SINGLE RED AND PINK

**ANNE MARIE**, clear pink, very early.

**GERTRUDE**, rosy pink, compact flower, good forcing variety, fine for pots. Also excellent for bedding.

**JAN BOS**, beautiful rich scarlet, very early.

**LADY DERBY**, fine pink, large bells, fine shaped bulb.

**LA VICTOIRE**, brilliant carmine red, large spike, best for forcing and splendid bedder.

**MARCONI**, deep rosy pink, highly recommended.

**PINK PEARL**, rosy pink; large spike; early. One of the best pink Hyacinths.

**QUEEN OF THE PINKS**, lovely bright rosy pink; large spike of fine bells, late forcer. Also good for bedding.

### SINGLE WHITE

**ARENTINE ARENDSSEN**, pure white, large truss and large bells, very early.

**EDELWEISS**, pure white, sturdy broad compact spike, large fleshy bells, fine early forcer.

**L'INNOCENCE**, pure white, broad loose spike of elegant form, very large well shaped bells, **early** and excellent for **forcing**, and a good bedder. The **most popular** of all white Hyacinths.

**QUEEN OF THE WHITES**, pure white, splendid spike, very good for late forcing.

SINGLE LIGHT AND DARK BLUE

- BISMARCK, skyblue, large truss, excellent for early forcing.
- DR. LIEBER, medium blue.
- DR. STRESEMANN, bright blue, large flower.
- DUCHESS OF WESTMINSTER, beautiful deep blue with striking white centered bells.
- GRAND MAITRE, fine deep porcelain blue.
- KING OF THE BLUES, the best dark blue, with splendid, well formed large spike, on short stem; late forcer and good bedder.
- MYOSOTIS, pale blue; long spike. Good forcer.
- OSTARA, fine porcelain blue, early forcer.
- PERLE BRILLIANTE, fine lavender blue, large spike.
- QUEEN OF THE BLUES, fine light blue with beautiful silvery shade, large spike. Also extra for bedding.

SINGLE YELLOW

- CITY OF HAARLEM, yellow, large spike, extra fine.
- PRINCE HENRY, yellow, early forcer.
- YELLOW HAMMER, yellow, large broad well shaped spike.

SINGLE VIOLET

- LORD BALFOUR, purplish violet, broad fine shaped large truss.

# How to order Hyacinths

We offer our Hyacinths in various grades as mentioned below. For selection of varieties we refer to name-list on pages 4—5 and 7.

p. 1000  
\$

**TOP SIZE HYACINTHS** ..... 105.—

In this size we offer the finest bulbs which the harvest produces, carefully selected bulbs, producing large flowers

**FIRST SIZE HYACINTHS** ..... 95.—

This size is just one size below top size and these are also large and carefully selected bulbs, producing large flowers. This is also the best size for growing on Hyacinth-glasses.

**SECOND SIZE HYACINTHS** ..... 80.—

This size we can specially recommend for general purposes, these bulbs are excellent for growing in pots and pans and a welcome material for selling in stores.

**THIRD SIZE HYACINTHS** ..... 70.—

Because the flowerspikes of this grade are not as large as those of the larger sized bulbs, this size Hyacinth is recommended for planting 3 or more bulbs in a pot or pan. This grade is also suitable for bedding purposes.

**BEDDING HYACINTHS**

**Named varieties or separate colors** ..... 60.—

This size is very popular for outside planting. The flowers are not so heavy and will therefore stand rainy and windy weather.

**MINIATURE HYACINTHS** ..... 50.—

Miniature Hyacinths produce very elegant flowers and are of great value for cutflower purposes.

1000 price  
Less then 100 add 10 %

# Prepared Hyacinths

(for early forcing)

These Hyacinths are treated in a special way, which make them well suitable for early forcing; they should be potted directly after arrival.

As the Bulbs are lifted early and have to go through a special process, orders for these bulbs must reach us before June 1st.

These Hyacinths offer a welcome material when other Hyacinths and Tulips are not yet ready.

Prepared Hyacinths are suitable for early cutflowers, especially in small sizes.

We recommend the following varieties:

## SINGLE RED AND PINK

- ANNE MARIE .....
- JAN BOS .....
- LADY DERBY .....
- PINK PEARL .....

## SINGLE WHITE

- ARENTINE ARENDSSEN .....
- EDELWEISS .....
- L'INNOCENCE .....

# Darwin Tulips

(Holland Grown)

## „THE ARISTOCRATS OF TULIPDOM“

We know of no other Tulips so useful for various purposes, as the Darwin Tulips, with their bright colors, their large flowers on long graceful stems, their wonderful substance and lasting qualities.

The forcing varieties of the Darwins offer the florist unsurpassed material for cutflowers and potplants from the end of January all through the winter, for Easter and Mothersday.

Darwin Tulips are also splendidly suitable for growing in cool greenhouses or under so called „cold glass“.

For bedding, planting in borders and general gardening purposes, as well as for outside grown cutflowers, there are no better and more pleasing Tulips than the glorious Darwins. No May garden is complete without Darwin Tulips, which possess a beauty and attractiveness all their own.

## Single Late or Cottage Tulips

Single Late Tulips flower about at the same time as the Darwin Tulips and this class is specially noted for its wide variation in color, shape and habit of flowers, which make the Single Late Tulips useful also as cut-flowers grown outside.

Although some very good forcing varieties are found amongst the Single Late Tulips, this class is mostly used for bedding, for planting in borders and general gardening purposes for which they are excellently suitable.

p. 1000

<b>ADVANCE</b> , fiery red, very large flower .....	40.—

<b>FINE MIXTURE</b> .....	28.—	

## Lily Flowering Tulips (Holland Grown)

The Lily-flowering Tulips belong to the Single Late- or Cottage Tulips and bloom at the same time. They are so called on account of their shape, more or less resembling Lilies. They are fine for borders and their elegant graceful shape makes them very desirable for cutflowers, grown outside.

	p. 1000

<b>MIXED VARIETIES</b> .....	30.—	

# Triumph Tulips (Holland Grown)

The Triumph Tulip is the result of a crossing between early Tulips and Darwin Tulips. They have the stem of the Darwin and make beautiful pans for Easter. Their outstanding colors and strong habit make them very attractive for planting in the garden where they take a special place as they bloom between the early- and the Darwin- and other late flowering kinds, and so fill the gap between these classes.

With their strong habit, beautiful and unusual colors, Triumph Tulips are very effective in the garden.

	p. 1000
	\$
<b>ALBERIO</b> , cerise scarlet, yellowish edge, good for pots, fine bedder .....	30.—

<b>COLLECTION OF CHOICE VARIETIES, OUR SELECTION</b>	32.—
<b>MIXED VARIETIES</b> .....	25.—

## Mendel Tulips (Holland Grown)

Mendel Tulips are hybrids between the old Duc van Tol Tulips and Darwins. Many varieties can be forced early and in a shorter time than most forcing Darwin Tulips, some varieties can flower the end of January and easily for Valentine Day, either grown in pots or flats for cutflowers. Some should be forced later.

# Bulbs for Rockgardens

---

Rockgardening, so popular nowadays, can be made more attractive by the use of bulbs, well selected for this purpose.

The bulbfamily comprises many kinds which can be used to great advantage.

Rockgardens do not reach their prime until Summer, but when **Bulbs** are used the flowering period of a rockgarden will be extended considerably, as Bulbs produce a rich variety of form and color during early Spring.

Deep, welldrained pockets of soil are required for planting the bulbs.

The following kinds will be found of special merit: Tulip species: Chrysantha, Eichleri, Fosteriana Red Emperor, Kaufmanniana Varieties, Praestans Fusilier, further Miscellaneous Bulbs such as Crocus, Muscari (Grape Hyacinths), Eranthis (Winter Aconite), Galanthus (Snowdrops), Chionodoxa (Glory of the Snow), Fritillaria Meleagris (Guinea Henflower), Scilla sibirica and also the later flowering Scilla campanulata and nutans varieties (Wood-Hyacinths).

Very attractive and useful for Rockgardens, are also the dainty miniature Daffodils listed under „Various Narcissus“.

Further: Anemone, Allium Moly, Erythronium, Iris reticulata, Tritoleia.

You can make a profit  
by selling bulbs for rockgardens
